

## SAVE ON FUEL

1 Get more miles to the gallon / more kilometers to the liter

## SAVE ON MAINTENANCE

2 Fewer and cleaner oil changes, less wear on internal parts

## LOWER EMISSIONS

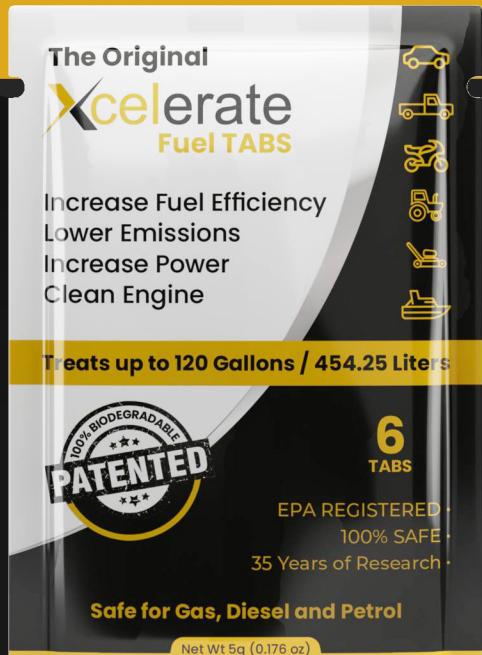

3 Less pollution and lower CO<sub>2</sub> levels means a cleaner environment

## SAVE ON FUEL COSTS

4 Most vehicles can now choose a lower octane fuel

## MORE POWER

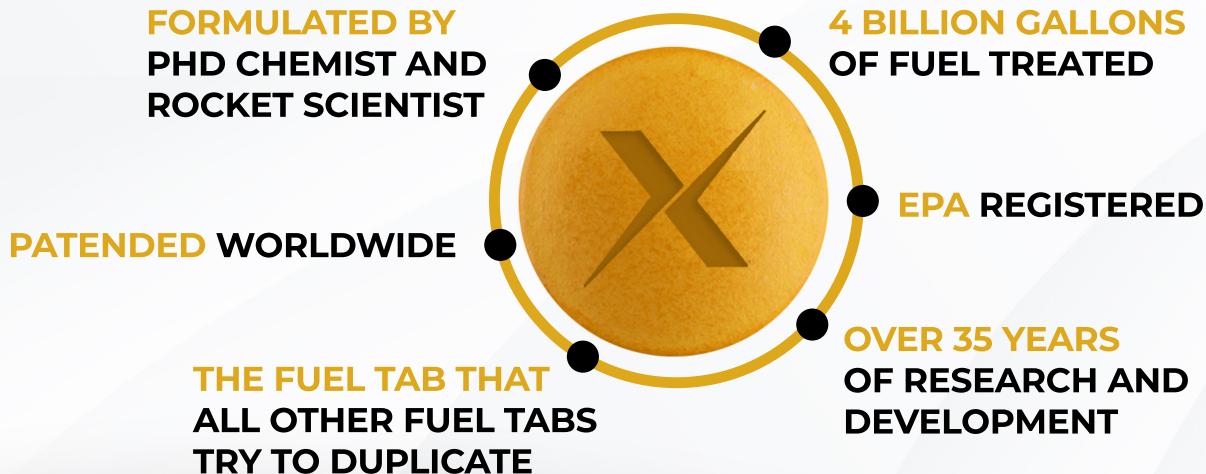

5 More torque and horsepower means better combustion

- ✓ 6 Tabs Per Pack
- ✓ Treats 20 Gallons / 75 Liters Per Tab
- ✓ Each Pack Treats 120 Gallons / 450 Liters
- ✓ 100% Biodegradable
- ✓ 100% Safe for Gas and Diesel +++
- ✓ Fastest Dissolving Tab
- ✓ Proprietary and Patented Ingredients
- ✓ 35 Years of Research and Development

The **ORIGINAL** and only **PATENTED** Fuel Tab

### PATENTED

**Xcelerate Fuel Tabs** active ingredients are fully encapsulated in one of the most thermally stable organic compounds on earth.

- Contains NO Tetramethylbenzene
- 100% biodegradable
- Burns fuel more efficiently
- Removes old harmful carbon and stops new carbon from forming
- Reduces harmful engine hotspots and modulates fuel burn rate
- Does not raise octane or alter fuels chemistry
- Completely OEM compliant

### ZERO HARM GUARANTEE

We GUARANTEE that our product will never harm or in any way damage your vehicle's gas or diesel engine or fuel system when used as directed.

**100%** - Biodegradable and non-hazardous

**Guaranteed** - Safe for ALL gas and diesel engines

**30+ Years** - Zero Insurance claims or negative side effects

The **ORIGINAL** and only  
**PATENTED** Fuel Tab

# SAFE FOR ALL ENGINE TYPES

CARS

LAWN  
EQUIPMENT

TRUCKS

MOTORCYCLES

BOATS

GENERATORS

Combining the latest science on nobel prize winning organo-metallic compounds and burn rate modulators for rocket fuel, our formula helps reduce carbon build up in your engines by burning fuel more efficiently and cleaning your engine for optimal performance. Less carbon. Fewer damaging engine hotspots. Lower emissions.

# Xcelerate

I know my truck very well loaded vs empty.  
Doing the actual math on my 4th tank I received 18.9 mpg! Folks....that's an extra 5 gallons per tank or roughly 100 extra miles.

Bryan R

“

I have been using the Xcelerate fuel tabs since

Aug and I am blown away by my latest results. I drive a 2016 Toyota Tundra with approx 90k miles and constantly carry approx 1000 pounds of equipment. Before Xcelerate I was getting around 380 highway miles per 26 gallon tank, my most recent tank I got 505 miles and still had 15 miles to empty, that's an extra 140 miles on 1 tank.

**Randall H**

•

1st tab not much difference.

3/4 of a tank on second tab and I'm getting over 5 miles per gallon additional. With a 20 gal tank at 5 mpg plus that 100 additional miles per tank.

**Vincent S**

•

Really happy with the results. I drove 461 km with a Peugeot 207 HD diesel. My car's consumption went from 5.8l/100km to 3.9l/100km.

**Maryline P**
